

# Cytric Travel & Expense

Managing your  
corporation's  
business journeys  
just got easier

## **Cytric Travel & Expense is the only travel system your corporation needs.**

With trip planning, booking, and expense management in our unique travel ecosystem, our end-to-end solution gives you complete control and visibility of your travel investment.

A fully customizable, easy integrated system gives you access to the best content, backed by our partnerships with travel providers across the industry, to search and compare all the content in one display, no matter which source it comes from. Users can view and filter by the criteria that matter to them most: price, schedule, CO2 emissions, class, services and conditions, to get transparent results.

## **What if everything could be simplified and in one place?**

### **Announcing our partnership with Microsoft to redefine the digital workplace for business travelers.**

Today, Amadeus, in partnership with Microsoft, is taking the first step in their joint vision to redefine corporate travel: **Cytric Travel & Expense**, the Amadeus online booking and expense management tool, is now embedded in Microsoft Office 365 - introducing **Cytric Easy**. Users can plan trips and share travel details with colleagues without ever leaving their day-to-day applications such as Microsoft Outlook or Microsoft Teams.

**Booking business travel will be faster and easier than ever before!**

Find out more about our partnership by contacting [UK.corporations@amadeus.com](mailto:UK.corporations@amadeus.com) to schedule a demo or discuss our solutions for your business.
